## **OSSINING UNION FREE SCHOOL DISTRICT ADOPTS “NEXT GENERATION” PAPERLESS MEETING TECHNOLOGY**

***eGovernance Solution Enables Local School District to  
Save Time, Money and Increase Board Effectiveness***

The Ossining Union Free School District is using the power of the Internet to improve the governance process while saving time, taxpayer dollars and the environment. The new eGovernance initiative will replace the old and costly method of compiling, printing, binding and distributing paper agenda packets by hand.

The paperless meeting solution, called BoardDocs<sup>®</sup> LT, is a 100% Web-based service. By making meeting agendas and supporting documents available on the Internet, the Ossining Union Free School District will be able distribute materials associated with board meetings more efficiently and at a reduced cost to the district.

Electronic distribution will not only save time and resources, it will also provide unprecedented public access via the Ossining Union Free School District’s Web site to agenda items and other board-related information. This process will allow interested parties to review information such as meeting agendas and presentations prior to board meetings. All documents associated with the meeting are automatically archived and can be accessed by meeting date or by using the system’s comprehensive search feature. The new eGovernance features can be accessed via the district’s Web site at [www.ossiningufsd.org](http://www.ossiningufsd.org).
